Into the Halloverse

Happy  
Hallo  
ween

# A meme Coin Beyond The meme

To create a thriving Halloverse (ecosystem) the Halloween coin is built and improved upon existing crypto fundamentals with a more decentralized approach. These ranges from an Official multichain DEX called the Spookyswap, SpookyDAO, the SpookyDapp, the Spooky Marketplace and the very owned Halloween themed metaverse.

# Spooky Swap

The Spooky swap is a fully DECENTRALIZE exchange for the crypto community that grants users complete control over asset with near instant swap and at zero fees. The development of the Spooky swap will be a game changer in the Halloverse as it will bring collaboration between Halloween coin and other crypto project. The official token of the Spooky swap will be the Spooky token.

# Spooky DAO

Halloween coin been a community run project will embrace the Decentralized Autonomous Organization nature to ensure 100% transparency and community input for a better and improved product in the crypto space. your thoughts are conveyed as proposal.

Halloween

# Spooky Dapp

Another amazing features in the Halloverse is the Spooky Dapp that will allow holders to perform DeFi functionalities within the Halloverse such include Staking, Lending and borrowing.

- Holders will be able to stake Hallo to earn the Halloween coin and other cryptocurrency

# Spooky marketplace

The Spooky marketplace is a unique NFT marketplace that will allow NFT creators to create, trade and collect Halloween characters and Halloween collectible

# The Metaverse

There is no one crypto project building a single metaverse. We all playing our part to build this virtual world. Our metaverse will be a virtual reality world that represent the Halloween culture. User will be able to perform real life Halloween events such as trick or Treat, Halloween party. Think of it like Halloween in the metaverse with Halloween coin playing a vital role.

# Roadmap

The development of the vibrant ecosystem will be subdivided into 3 phase

- Conception Phase
- Development Phase
- The BIG BANG Phase

# Conception Phase

This phase includes adequate research on the various blockchain technology and the one that suite the purpose, Hallo Labs setup, development of the Halloween coin whitepaper. Telegram community, Twitter page setup and the development of the Halloween coin

# Development phase

It is fundamental to build the core fundamentals of the Halloween coin but above that, the community plays a vital role in the success of the stated project. This phase is very crucial to the Halloverse, thus given priority. This includes community development, presale event, Aggressive marketing, website developments and utility development rollups. This will be listed out on the website under the roadmap section.

# The BIG BANG

The biggest event in the Halloverse. This phase begins with a massive burning event of Hallo by Hallo Labs to increase scarcity of token. Followed and the development of the metaverse. The release of the Official Halloverse. The metaverse built to celebrate Halloween in a virtual world across the globe

BUILD AND KEEP  
BUILDING
